GOLF MECHANIX®

R&A USGA

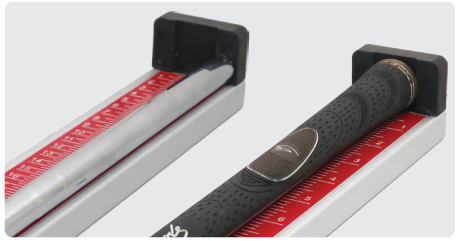
090601 *Fitter's wrist to floor club Length Ruler*

For the custom club fitters who work on and off the golf course. When fully extended this ruler can measure a golf club's playing length to the R&A and USGA 60° rule for sanctioned tournamenent play.

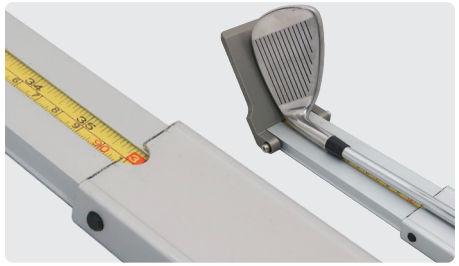
The ruler also doubles up as classic wrist to floor measurement fitting ruler that instantly reveals the best club length to fit a golfer with woods and irons.

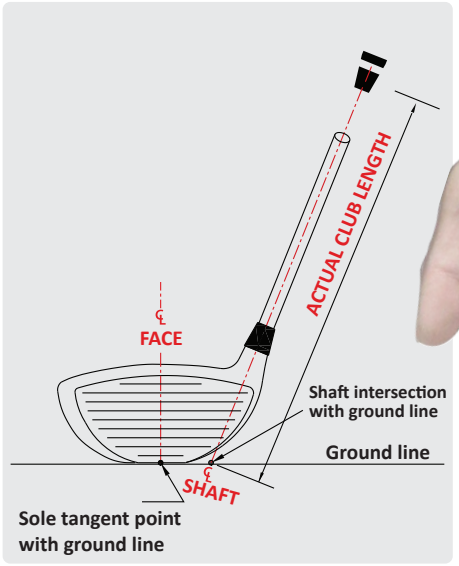
Key Features:

-Measures club length from 32 to 57 ".
-Metric & imperial scale accurate to 1 mm or 1/32"
-Wrist to floor measurement for men and ladies.
-Wrist to floor scale for woods and irons.
-Lie angle soling plate with 60 degree wedge.
-Slider mechanism collapses ruler to 31"
-Suited for RH / LH clubs



▲ Grooves on butt-stop for measuring both raw shafts and gripped clubs.





▲ Back stop to lock tipping plate to 60°; for measure clubs in sanctioned events
