"CleanCut" Geared Grip Tape Dispensers (With or Without Tape Length Control)

The "CleanCut" is the latest model in our geared grip tape dispenser lineup, designed to enhance efficiency and minimize tape expensive tape wastage. This dispenser addresses common issues such as torn or wrinkled edges and inconsistent tape lengths, ensuring clean and consistent results.

designed with an integral guillotine cutting mechanism, the "CleanCut" produces wrinkle-free strips of tape with precisely squared edges, cut to the desired length. Its efficient operation reduces waste, minimizes frustration when rushing through several sets of golf clubs, realizing significant cost savings over its serviceable working life.
