# Registering sport.dll on Win 7/8

From The window start All programs/ accessories / Command prompt
Run the Command Prompt as administrator

Locate the sports.dll. Open properties and copy its
file location.

In the command prompt, type in the command regsvr32 ""
Enter the file path of the sport.dll file into the quotations.

I C:\user\boss>regsvr32 "D:Programs\Golfmechanix\P300115\Sport.dll"

If the process was successful, the message shown above will pop up.
If the process did not succeed, check for spelling and spacing errors.
