

Universal Mount High Power Laser

A powerful 5mW 670 nm Industrial grade laser tracer fitted with a universal mount that allows free standing installation with a high degree of adjustment over any gripping station. This could be a slat wall panel, a wall bracket or a telescopic pod. Power to the laser is supplied by a universal AC/DC adapter.

The kit includes a universal bracket, the high power laser and the universal voltage AC/DC adapter. The kit is an ideal replacement for an existing installation or other means of bracket fixation can be crafted for the module.
