

Pro-Shop Swing Weight Scale

Designed by special request from the former Dynacraft® Golf Company Ohio; The Pro-Shop Swing Weight Scale is primarily intended for the golf retail store. It features a shorter beam to save space on counter tops, superb accuracy and a robust construction, this scale measures swing weight and static weight in grams and ounces.

Key Features:

- Industry standard Lorythmic 14" swing weight scale.
- Measures swing weight from A0 ~F 5 in 1/10th increments to +/- 0.3 SW
- Measures static weight from 0~ 500 grams or 18 Ounces to +/- 2 grams
- Stable Fast damping beam provides accurate measurements in less time

- Impact resistant fibre reinforced base with metal backbone.
- Levelling feet with non skid pads.
- Levelling bubble level
- Beam level indicator
- Electronically calibrated.
- Maintenance free design.
- Ideal for fitting studios & Golf retail shops.
