

Portable Heavy Duty Bending Stand

This Free standing heavy duty bending stand can be moved around the workshop and out of the way when not needed.

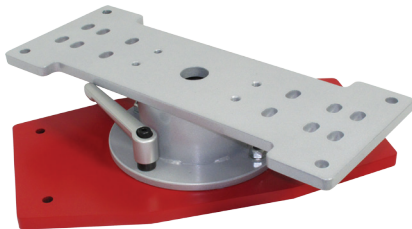

This stand only requires the clubmaker to leverage the bending effort by standing on the platform.

This stand can also be bolted to the shop floor with the supplied hat clamps and anchor bolts.

OPTION

Heavy Duty 360° swivel base

All Golfmechanix bending stands and the universal 360 swivel base are compatible with all our lie and loft bending gauges except our 1501XX and 1502XX series.
