GOLF MECHANIX® 170720

Metal Reinforced Rubber Clamp

Tough on the outside and gentle on the inside. This original design featuring the Golfmechanix “Power Rib” has been emulated by many for its ability to constrict a shaft without crushing it when over tightening the vise. Performs better and is as durable as steel backed rubber clamps!

Key Features:

-Tip trimming	-Shaft holding	-Shaft extraction
-Tip Prep-ping	-Club assembly	-Tip coring/ drilling*
