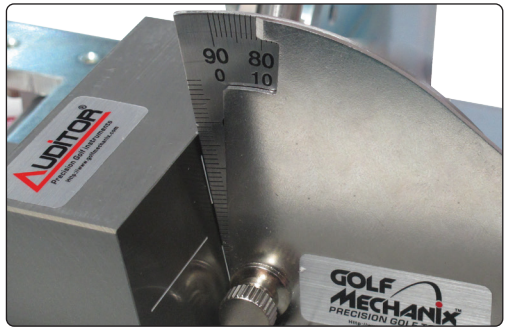
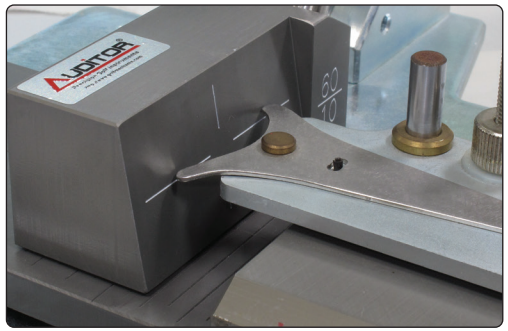
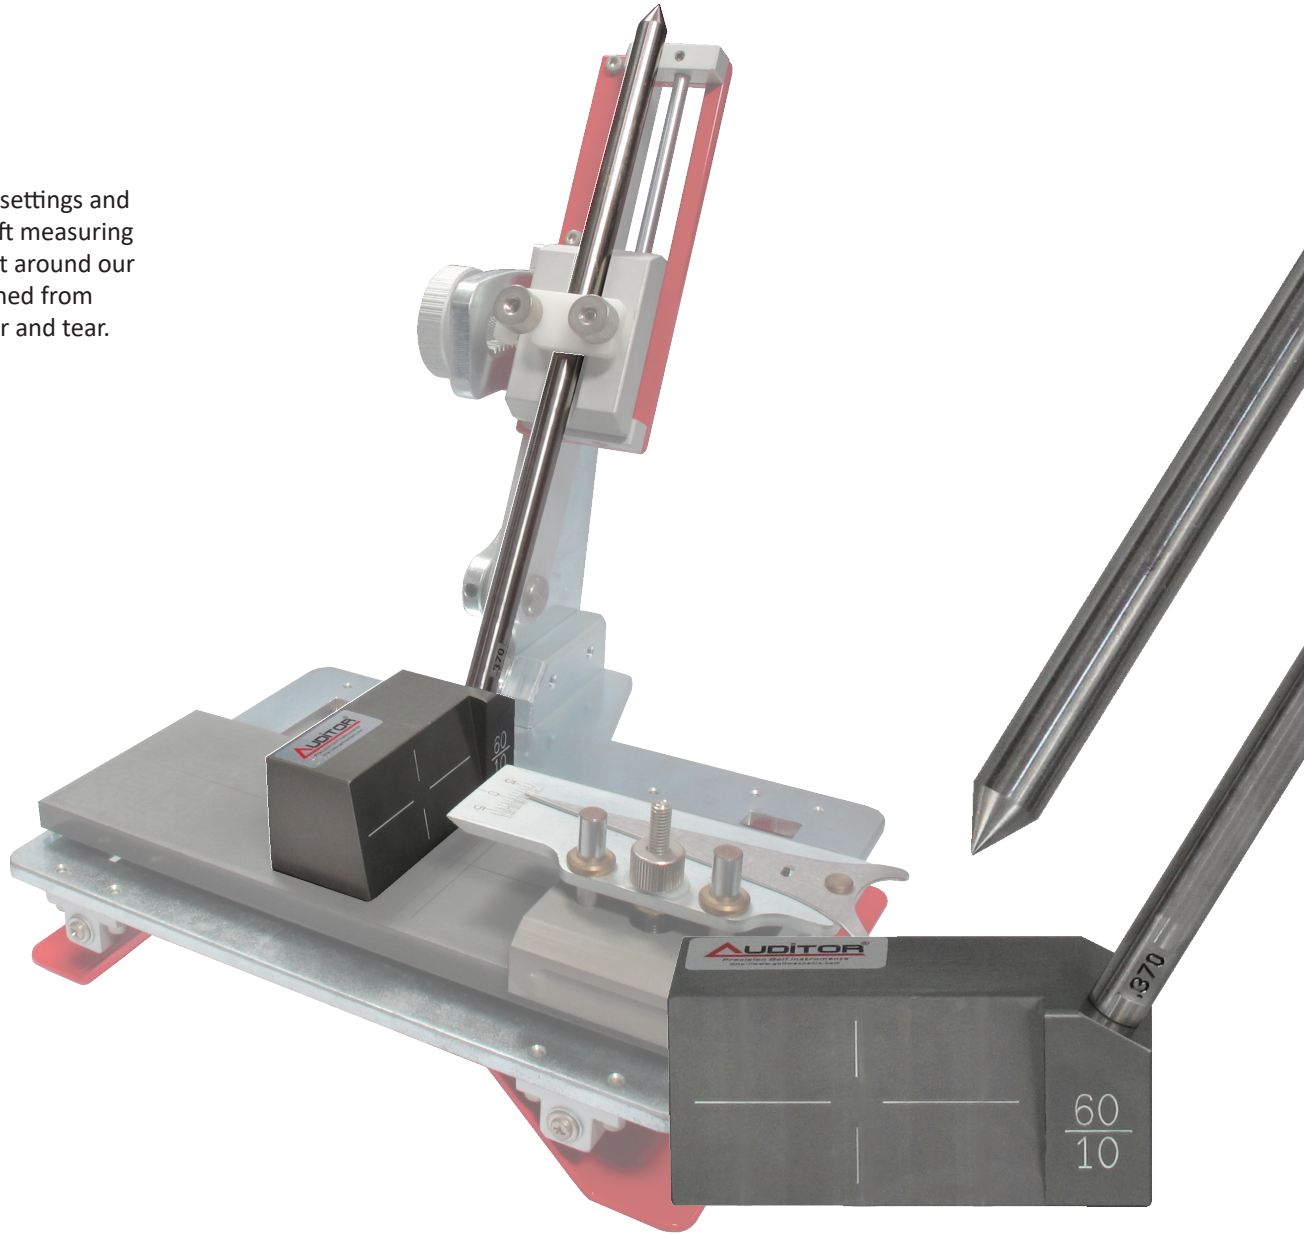
GOLF MECHANIX® 010002

Lie & Loft Calibration Standard

A calibration standard designed for verifying the settings and geometrical accuracy of all our 010xxx lie and loft measuring gauge and any other measuring gauge that's built around our standard. This calibration standard is CNC machined from Aluminum and is hard anodized to minimize wear and tear.

Standard Specifications:






Lie angle:	60
Loft Angle:	10
Hosel offset:	10 mm
Face Angle:	0
