AUDITOR® HDi HEAVY DUTY INDUSTRIAL 070930 R&A

Contour Tracer Club Head Vise

Built to the specifications of the R&A and refined by Golfmechanix, this adjustable vise is used to mount irons and drivers under the stylus of a contour tracer with good positioning accuracy with respect to groove alignment and face flatness, while still providing the stylus with a sufficient escapement angle in the direction of travel.

Key Features:

-Vise built with micro-metric precision
-Allows fine adjustment of tilt angle.
-Adjustable clamping pressure
-Precision machined, hardened Steel registers.
-Suitable for all club-heads.
