GOLF MECHANIX® HDI HEAVY DUTY INDUSTRIAL

100655 Compact Pneumatic Speed Gripper

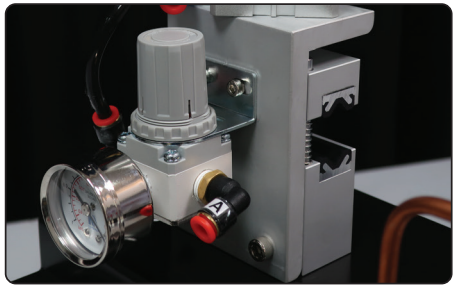
A stand by bare-bone industrial pneumatic gripping station that can be installed anywhere on a production line quickly to speed up assembly. Bolts onto a workbench or our transformer stand.

Key Features:

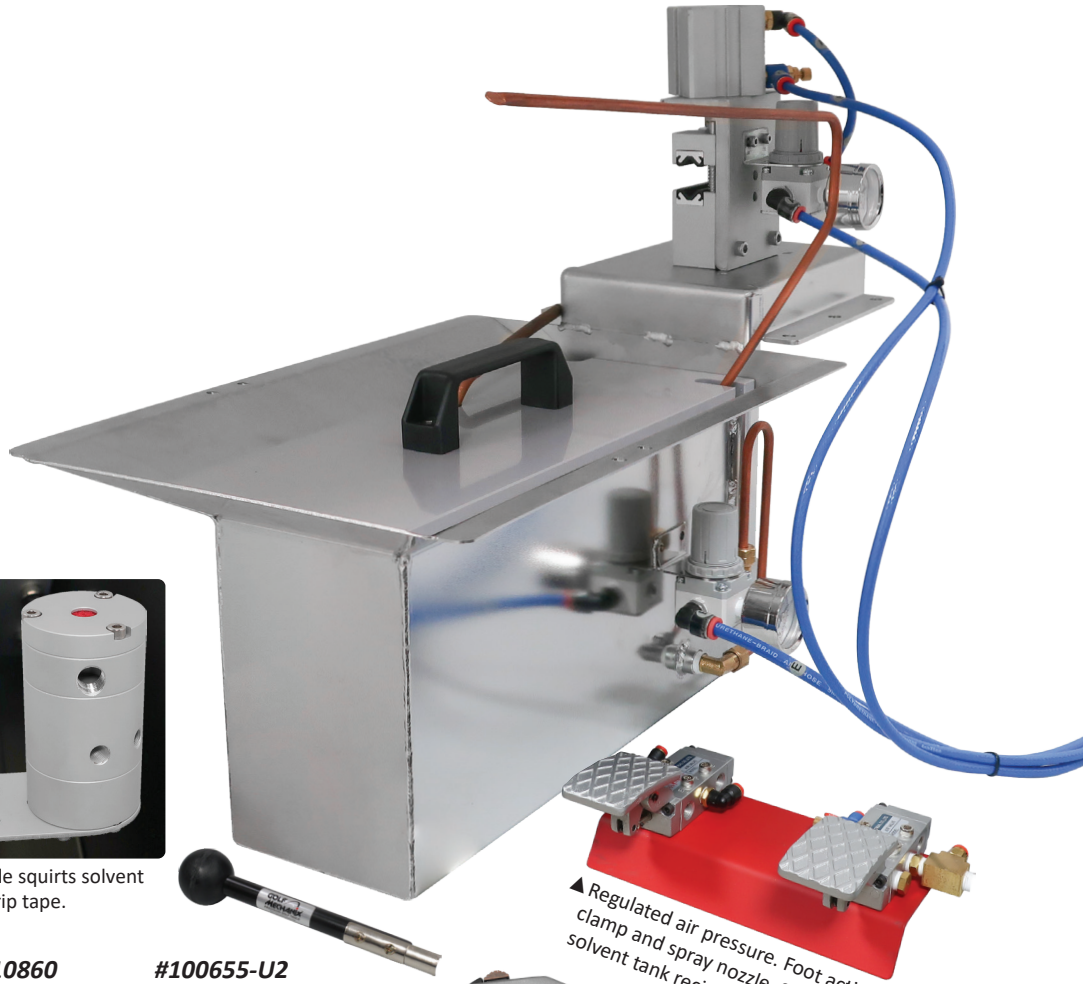
-Safe, low pressure, VOC compliant solvent dispensing system
-Solvent shower wets grip tape over shaft and into grip core
-On demand foot controlled vise clamp and spray nozzle
-Air assist grip install. Grip rides over tape on a cushion of air
Air cushion minimizes ridge formation and shortens cure time
-Solvent resistant, spill proof catch pan with heavy top lid.
-Capable of 100 PSI (6 bars) at a constant 5.5 CFM (155 lpm)
-The "Transformer Gripping Stand" sold separately.
-Requires the use of a stationary type air compressor

▲ Dedicated Solvent spray nozzle squirts solvent onto the shaft to lubricate the grip tape.

▲ Dedicated Solvent spray nozzle squirts solvent onto the shaft to lubricate the grip tape.



▲ Dedicated Solvent spray nozzle squirts solvent onto the shaft to lubricate the grip tape.



▲ Regulated air pressure. Foot activated clamp and spray nozzle. Spill proof, solvent tank recirculating flow.

OPTION

#100011

▲Transformer Universal Portable gripping stand

#110860

▲Hi Power Compact Grip Alignment Tracer

#100655-U2

▲Flexi Hose Fountain

Essential re-gripping tools included!
